

NEOnet

Prompt. Courteous. Knowledgeable.

Support **you** deserve.

As part of the Library Services and Technology Integration Services team, NEOnet boasts a 600 square foot Makerspace facility. The space provides a variety of equipment and high quality professional development opportunities facilitated by our knowledgeable team, and is aligned with best practices for both the science, technology, engineering, art and math STEAM and project based learning initiatives. NEOnet also partners with the Summit Educational Service Center to provide curriculum assistance that incorporates state standards. NEOnet delivers the support you deserve to help your district remain current on the latest technology trends.
