### **Safeguarded guest admit flow in Google Meet**

This new feature organizes join requests into two separate queues to help hosts manage large volumes of "knocks" more efficiently. One queue specifically highlights higher-risk connections with a default "deny" action, though hosts retain full control to approve or reject any guest.

### **How to Block Third-Party Apps in Google Admin**

This article explains how administrators can use API controls in the Google Admin Console to restrict third-party app access and protect sensitive domain data. It recommends a strategy of blocking unconfigured apps for students while allowing staff to use "Sign in with Google" only for applications requiring basic information.

### **Your Sora Digital Library, Anywhere!**

Could you and your students have access to thousands of ebooks, graphic novels, audiobooks, and magazines? NEOnet members that include library services could have access to Sora! The product is available at the website [sora.app](https://sora.app), or as an app for your device. Once you get acquainted with Sora, enjoy features like wish lists, placing holds, and setting reading goals. When you are asked "Does your school have Sora?" select NEOnet before searching for your district name. Please email your questions to [libraryhelp@neonet.org](mailto:libraryhelp@neonet.org)
